APEX 3224 - Mobile Hydraulic Stage

Proudly Made in the USA

Specifications:

Trailer:

Trailer Length	34'
Trailer Width	102"
Trailer Height	12' 2"
Cargo Space	6'11" x 31'4"
Cargo Capacity	5,000#
Trailer Weight	14,150#
Tongue Weight	1,800#
Axle Rating	10,000# x 2

Stage Deck:

Floor Size	32' x 23' 8"
Floor Height	46" to 66"
Ground to Roof	23' 1"
Floor Rating	150# / sq ft
Structure	Marine Plywood / Alum
Floor Support	16 - 7,000# jacks

Stage Roof:

Covered Roof	26' 3" x 34'
Deck to Roof Top	17' 8"
Deck to Center I-beam	15' 8"
Deck to Upstage I-beam	15' 11"
Deck to Downstage I-beam	15' 5"
Surface	Fiberglass / Alum
Roof Lifting Capacity	4,500#
Beam Loads:	
Fly Bays	2,000# / ea
Downstage I-beam	1,000# evenly dist.
Upstage I-beam	1,000# evenly dist.
Center I-beam	1,000# evenly dist.
Total Roof Capacity	8,000#
Slide-Out Bar Length	2' 3"

Other:

Install Time	1 - 2 hours
Required Personnel	2 people
Site Preparation	None
Hauling Mode	Gooseneck and/or Fifth Wheel Hitch
Power Source	5hp Honda Motor
Secondary Power	1.5hp electric 110

*engineering specs available

The Apex 3224 Mobile Hydraulic Stage is one of the most versatile mid-sized mobile stages in the industry. Custom banners, drops and branding, as well as optional sound wings and risers are available. The APEX 3224 allows your small to medium-sized event look just like a huge festival.

Utilizing American ingenuity and engineering, the APEX 3224 was designed to meet the unique needs of small to medium-sized events with the least impact possible on the surroundings. The all aluminum frame reduces the base weight of the APEX 3224 to about half the weight of it's closest competitor while maintaining 125 lbs / sq. ft of live load on the all aluminum stage floor. This advanced engineering allows for placement in more public area without the worry of weight impact on the ground.

The APEX 3224 was designed with the show in mind. The ease of setup and tear down cuts labor costs by more than half of similar stages. The stage can be set up by 2-3 people in about an hour compared to 4-6 people for 2-3 hours needed for other similar stages. This allows for your show to be up and ready at a greatly reduced cost.

The APEX 3224 was also designed with safety in mind. It has wind gust resistance of up to 70 mph and can be safely used with maintained with of up to 25 mph.

Maximizing size, safety and functionality, while minimizing hauling and labor requirements sets the APEX 3224 apart from the competition.
